## EXPERIENCE

### **Web Designer / Programmer — Web Communications, George Mason University (2000 - 2007)**

Designed a wide variety of web sites for George Mason University, including the university top page at [www.gmu.edu](http://www.gmu.edu). In addition to these responsibilities, I have also created a number of PHP web applications, and performed various system administration tasks on both Linux and Windows servers.

I was Employee of the Month in October of 2005 (<http://gazette.gmu.edu/articles/7231/>).

An up-to-date sample of my design work for George Mason can be found at [www.deaghean.com](http://www.deaghean.com).

### **Web Designer — New Directions Institute (2003 - 2006)**

Designed and managed the web site for New Directions Institute for Infant Brain Development.

### **Web Designer / Layout Editor — *Apathy* (1999 - 2003)**

Maintained the web site for *Apathy*, one of George Mason University's art and literary magazines. Also designed portions of the printed magazine as well as flyers and other promotional materials.

### **Web Designer / Editor in Chief — *Expulsion* (1999 - 2001)**

Maintained the web site for *Expulsion*, George Mason University's independent student newspaper. Also designed the print edition, wrote articles, lead staff meetings, and managed paper distribution.

## SKILLS

### **I can:**

- ▶ Design web sites with modern web design techniques (CSS, XHTML, Javascript).
- ▶ Program web applications using PHP and MySQL.
- ▶ Create graphics and animations with industry-standard applications such as Photoshop, Flash, and Illustrator.
- ▶ Layout printed materials with programs like InDesign and QuarkXPress.
- ▶ Create Powerpoint or Keynote presentations.
- ▶ Perform system administration tasks on Windows, Mac, and Linux systems.
- ▶ Quickly learn new programs and technologies.

## EDUCATION

Bachelor of Arts in Art and Visual Technology (Graphic Design), George Mason University, 2005
